

6.1.1

The institutional governance and leadership are in accordance with the vision and mission of the Institution and it is visible in various institutional practices such as NEP implementation, sustained institutional growth, decentralization, participation in the institutional governance and in their short term and long term Institutional Perspective Plan.

PRAGATI ENGINEERING COLLEGE

1-378, ADB Road, Surampalem-533437

(Approved by AICTE, Permanently Affiliated to JNTUK, KAKINADA & Accredited by NBA)

Recognized by UGC under sections 2(f) & 12(b) of the UGC Act , 1956)

Pragati Engineering College, known for its commitment to excellence in engineering education, has demonstrated remarkable institutional governance and leadership practices that align with its vision and mission. The management and Principal ensure that the policy statements and action plans are aligned with the institute's mission, disseminates the vision and mission to all stakeholders, and includes them in the formulation of policy statements. The Principal develops action plans in consultation with faculty members, reviews the outcomes of its implementation through meetings with functional committees, and makes necessary changes as needed. The management reviews the quality policies and, if necessary, makes changes to them.

Vision:

To Emerge as a Premier Institution for Technical Education in the Country through Academic Excellence and to be Recognized as a Center for Excellence in Research & Development, catering to the needs of our Country.

Mission:

To realize a strong Institution by consistently maintaining State-of-art-infrastructure and building a cohesive, World Class Team and provide need based Technical Education, Research and Development through enhanced Industry Interaction.

The college has adapted its curriculum and pedagogy to align with the NEP's vision, ensuring that students receive a well-rounded education that prepares them for the challenges of the future. The college has consistently improved its infrastructure, faculty quality, and academic programs to meet the evolving needs of students and industry demands. The college's strategic planning and resource allocation have played a pivotal role in its growth, ensuring that it remains a frontrunner in engineering education.

Pragati Engineering College practices decentralization and participative management to achieve excellence in all academic and administrative endeavors of the institution. The institution encourages faculty, staff, and students to actively participate in the governance process, fostering a sense of ownership and accountability. All the decisions of the institution are governed by management. It has a well-designed organizational structure with different bodies and committees and well-defined processes to provide leadership and manage different functions in tune with the vision and mission of the institution. Principal is the academic and

administrative head of the Institute. The Department Heads report to the principal on day-to-day administration of the departments. In addition, the staff and the students are involved in various activities to suggest/share their ideas to improve the excellence in any aspect of the Institute. Students also participate through different formal and informal feedback mechanisms. Suggestion box is kept in every department for suggestions from students. Office staff is involved in executing day to day support services for students and faculties.

Pragati Engineering College's commitment to its vision and mission is reflected in its well-defined short-term and long-term Institutional Perspective Plans. These plans outline the strategic objectives, goals, and action steps necessary to achieve the institution's aspirations. The organization IQAC readsies an essential point of view plan as a short and long-haul objective through IQAC led by the head and includes every one of the stake holders from the establishment.
