D.No. 2-46-21, Near D-Mart, Kakatiya Nagar, Kakinada. Ph : 7330826667, 7337458886

## 7.1.4: Water conservation facilities available in the Institution:

With a strong focus on sustainability, the institution has implemented a range of measures to minimize water wastage and promote conservation. These facilities include advanced rainwater harvesting systems strategically positioned across the campus, effectively harnessing rainwater for various non-potable purposes. Additionally, state-of-the-art water recycling and treatment units are in place, enabling the reuse of water for campus needs. The institution's commitment extends to water-efficient fixtures and appliances, ensuring minimal water consumption in restrooms, laboratories, and other areas. Regular awareness campaigns and educational programs further emphasize the importance of water conservation within the campus community. By integrating these facilities and initiatives, the institution sets a commendable example of sustainability and responsible stewardship, aiming to secure water resources for current and future generations.

### Water Bodies in Campus

The campus of Pragati Engineering College boasts serene water bodies that enhance its natural beauty. Among these, the watering of the mango grove stands out as a vital feature. The presence of these water bodies not only adds to the aesthetic appeal but also serves a functional purpose by nurturing the lush mango grove.

## Water Purification Unit

The campus is equipped with a state-of-the-art Water Purification Unit, ensuring clean and safe drinking water for all. Additionally, advanced water filters are strategically placed across the campus, providing easy access to filtered water.
