PEC/CIRCULAR/2024   Date: 06-04-2024

CIRCULAR

It is hereby informed to all the students that "**GAMING CLUB**" of "Department of Information Technology" is conducting an online event on "**Ethics in Game Design**" On 012-04-2024. Interested students are informed to register their names and participate in the event.

Faculty Coordinator :   HOD - IT

D.Kondababu – Assistant Professor(Department of IT)   Uma Devi

Student Coordinators:

N. Ganesh(21A31A1254)
U. Bheemeswar (21A31A1264)
GAMING CLUB

DATE: 12-04-2024
MODE: ONLINE
TIME : 06.00 P.M TO 07.30 P.M

Here is the official poster of our club:

FACULTY CO-ORDINATOR: D Konda Babu (Asst. professor, IT Department)

STUDENT CO-ORDINATORS: Dongara Abhiram (2rd Year ECE)

U. Bheemeswar(3rd Year IT)

PRAGATI ENGINEERING COLLEGE
(AUTONOMOUS)
DEPARTMENT OF INFORMATION TECHNOLOGY

REGISTRATIONS:

Students Registered for event on "**Ethics in Game Design**".

PLAYING BY THE RULES: NAVIGATING THE ETHICAL LANDSCAPE OF GAME DESIGN

INTRODUCTION

Welcome to the **ethical** journey of game design. Let's explore the *creative* process and the **impact** on players and society.
TRANSPARENCY IN DESIGN

Communicate **clearly** and *honestly* with players. Transparency in game design builds **trust** and fosters ethical gameplay.

ETHICAL DECISION-MAKING

Navigate **complex** ethical dilemmas in game design. Applying *principles* and considering **consequences** is vital for ethical decision-making.

REPORT:

On 12-04-2024, The "**Gaming Club**" of Department of Information Technology have Organized a "**Ethics in Game Design**".

This event is conducted to create awareness among students about complete detail about gaming and it's career. And also awareness on career as Game developer in the market.

The Resource Persons of this Event are:
1. U. Bheemeswar (3rd Year IT)
2. Dongara Abhiram (2rd Year ECE)

Faculty Coordinator;
1. D. Konda Babu (Assistant Professor- Department of IT)

Students from all the branches have attended the session and joined into the Gaming Club. Also the students from other colleges are joined the session and want to be part of Gaming Club Community.
Number of Registrations: 116
Number of Attendes: 65
Number of Telegram Group Members: **220**
Number of WhatsApp Group Members: **333**
Number of Instagram page Members: **56**

At last, The event completed Successfully by giving an complete and informative session to students.

THEME OF THE EVENT:

We conduct a event based on gaming career. Let's delve into a detailed explanation of this topic for students who have interest in gaming.

Detailed Overview: Comprehensive Overview of Game Design

INTRODUCTION

"Ethics in Game Design" refers to the moral principles and considerations that game developers should think about when creating games. As games have become more immersive and influential, there's a growing awareness of the potential impact they can have on players and society as a whole. Here are some key aspects of ethics in game design:

1. Representation in Games: This aspect involves how different groups of people are portrayed in games. Ethical game design aims to represent diverse characters and cultures accurately and respectfully. This means avoiding stereotypes and caricatures and creating characters that are well-rounded and realistic.

2. Effects of Violence: Many games contain violence, and ethical considerations here involve how violence is depicted and its potential effects on players, especially younger audiences. Game designers think about the context of violence in the game, its consequences, and whether it serves a purpose in the narrative or gameplay beyond being gratuitous.

3. Addiction Potential: Games can be designed to be engaging, sometimes to the point where players can develop addictive behaviors. Ethical game design involves considering how gameplay mechanics and reward systems can impact player behavior. Designers may aim to create balanced gameplay that doesn't excessively encourage addictive tendencies or exploit players' compulsions.

4. Monetization Ethics: This refers to how games make money beyond the initial purchase. Ethical considerations include the use of microtransactions, loot boxes, and other monetization models. Game designers think about whether these systems are fair to all players, whether they encourage gambling-like behaviors, and whether they create pay-to-win scenarios that disadvantage those who don't spend money.

5. Privacy and Data Collection: With online games and connected experiences, there are concerns about how player data is collected, stored, and used. Ethical game design involves being transparent with players about data collection practices and ensuring that privacy is respected.

6. Inclusivity and Accessibility: Ethical game design aims to create games that are inclusive and accessible to all players, regardless of their abilities or backgrounds. This involves considerations like providing options for different difficulty levels, subtitles for players with hearing impairments, and customizable controls for players with physical disabilities.

7. Social Impact: Games can have a significant impact on society and culture. Ethical game design considers how games portray social issues, historical events, and political themes. Developers may aim to create games that spark positive discussions or raise awareness about important topics without sensationalizing or trivializing them.

In essence, ethics in game design is about creating games that are not only fun and engaging but also considerate of their potential impact on players and society. It involves making thoughtful decisions about content, mechanics, and monetization to ensure that games are fair, respectful, and contribute positively to the gaming community.

Resource Persons:
