## **Sensitization of students and employees of the institution to constitutional obligations: values, rights, duties and responsibilities of citizens:**

Pragati Engineering College's (PEC) endeavor to sensitize its students and employees to their constitutional obligations, values, rights, duties, and responsibilities is a commendable step towards fostering a responsible and engaged citizenry. By instilling a deep understanding of democratic principles, ethical values, and social responsibility, PEC equips its students and employees with the necessary skill sets to make positive contributions to society. Through this comprehensive approach, PEC aims to nurture future leaders who will uphold the constitutional ideals, promote inclusivity, and work towards building a just and prosperous Nation.

PEC recognizes that education extends beyond the realm of academics. Value education plays a pivotal role in shaping individuals' character and ethical conduct. Through regular workshops, seminars, and discussions, students are sensitized to the importance of integrity, respect, empathy, and inclusivity. By integrating value education into the curriculum, PEC ensures that students internalize these values and apply them in their personal and professional lives.

Awareness of one's rights and responsibilities as a citizen is essential for fostering a harmonious society. PEC organizes interactive sessions and guest lectures by legal experts and social activists to educate students and employees about their fundamental rights, such as freedom of speech, expression, and religion, as well as the right to education and equality before the law. Simultaneously, the importance of fulfilling responsibilities, such as respecting the rights of others, paying taxes, and actively participating in the democratic process, is emphasized.

PEC believes in encouraging students and employees to actively engage in civic activities and contribute to the welfare of the community. By organizing volunteering programs, social initiatives, and community outreach Programs, PEC provides practical opportunities for students and employees to put their learning into action. This not only enhances their understanding of their responsibilities as citizens but also fosters empathy, compassion, and a sense of social responsibility.

Leadership skills coupled with ethical values are essential for building a just and progressive society. PEC emphasizes the importance of ethical leadership by organizing leadership development programs, where students and employees are exposed to ethical dilemmas and trained to make morally sound decisions. Through case studies and real-life examples, they learn the significance of transparency, accountability, and integrity in leadership positions.

PEC recognizes the importance of creating a safe and inclusive environment for all its students and employees. Sensitization programs are conducted to promote gender equality, respect diversity, and prevent discrimination and harassment. By cultivating an inclusive atmosphere, PEC enables individuals to exercise their rights and fulfill their responsibilities without fear or prejudice.
