CYBER SECURITY CLUB REPORT

DATE: 21-09-2024

SEMINAR ON “LINUX COMMANDS - PRACTICAL SESSION”

The absence of data security is the main drawback in today's digital world. Our private data became bait to hackers. In order to avoid this situation, one should secure their own data. Cyber security is the protection to defend internet connected devices and services from malicious attacks by hackers, spammers, and cyber criminals. Around today's world you will see that daily life is more dependent on technology than ever before. With so much good coming from technology, it can be hard to believe that potential threats lurk behind every device and platform. Despite the advantages, cyber security threats presented by modern tech are a real danger and it is mandatory to protect our data.

In an effort to raise awareness about Cyber Security, we, the club members conducted a seminar titled “LINUX COMMANDS - PRACTICAL SESSION” for the Second year students on 20th september 2024 from time 1:00pm to 3:30pm. We guided participants through hands-on exploration of essential commands. The session began with an introduction to basic commands execution. Throughout the session, live demonstration were paired with individual practices, ensuring an interactive and engaging learning experience for all the attendees.
