MECHANICAL ENGINEERING DEPARTMENT

PRAGATI ENGINEERING COLLEGE focuses on imparting skills on cutting-edge technologies and shaping the students into disciplined young citizens of good character and lays emphasis on practical experience so as to enable them to secure employment in the industry there by becoming entrepreneurs. The courses are so structured which leads to linear growth and progressive insight into the engineering subjects as well as training in soft skills. Since its inception in 2001, in its quest to offer quality education, our college has become a temple of Knowledge and produced hundreds of eminent and skillful-graduate engineers, who are successful in their careers, serving all over the world.

MECHANICAL ENGINEERING DEPARTMENT

Pragati Engineering College started an undergraduate (B.Tech.) program in Mechanical Engineering in the year 2004, in order to meet the educational needs of the K.G. basin. The Department of Mechanical Engineering caters to the regional and global human resource requirements. The students of this department stood as college toppers in academics. The institution is located in the industrial corridor and therefore the students and teachers of the department get benefited through Industry-Institute-Interaction.

The department is committed to strengthen the academic, research and functional abilities of the students, in order to enable them to stand as competent and versatile professionals after graduation. The department strives to enhance research activity in the department, thereby creating competent intellectual resources to the students.

The department building occupies an area of 27,500 SFT and houses well-equipped laboratories. The department conducts various events for revealing scientific, engineering, and technological advances to students. The students participate in events and national level contests, conducted by various institutes. The members of faculty have completed sponsored research projects, amounting to a net worth of Rs. 21 lakh, during the past three years.

VISION OF THE DEPARTMENT

To be a globally renowned school of mechanical engineering in transforming individuals into professional engineers with world class competency and state-of-the-art research to fulfill the technological needs of the society.

MISSION OF THE DEPARTMENT

The department of mechanical engineering strives.

- To prepare, educate and guide students by the faculty from all domains of mechanical engineering in enhancing their skills.
- To establish and utilize world class resources and infrastructure to impart quality education and promote Research aptitude among faculty and students to pursue higher education in diverse fields.
- To explore the students' knowledge gradually through industrial interaction for increasing their placement potential to fulfil the basic needs of the society with ethical and social responsibility.

MECHANICAL ENGINEERING DEPARTMENT

ERUDITE under **STRIDES** has been an opportunity since 2007 created by the Mechanical Engineering Association of our college, since then it made a great progress to provide a technical platform to all the students coming out from all parts of the nation to enhance their skills and improve their knowledge in the field of Mechanical Engineering.

What does ERUDITE means?

ERUDITE means “Characterized by Great Knowledge”

This year ERUDITE is back with loads of innovative and technical aspects.

Now let us take a quick look at technical events going to be organized in

ERUDITE-2K24

TECHNICAL VISUALS: Technical visuals refers to the use of video production equipment, techniques, and tools to create videos that are of high quality and are used for specific purposes such as training, education, scientific research, product demos, or presentations. Technical videography involves the use of specialized equipment such as high definition cameras, microphones, lighting, and editing software to capture and produce videos with a high level of technical accuracy and precision.

VIRTUAL DRAFTING: Virtual drafting refers to the process of creating, revising, or finalizing documents, designs, or plans using digital tools and software instead of traditional pen and paper methods. This could apply to various fields such as architecture, engineering, graphic design, legal documentation, and more. In virtual drafting, professionals typically use specialized software programs such as AutoCAD, Adobe Illustrator, or drafting-specific applications to create precise and detailed representations of their ideas or plans.

ALUMNI CORPORATE DIALOGUE

In these event alumni(Priya Chandini Ragu) interacted a sessions focused on software jobs for mechanical engineering students, which provide valuable insights, guidance, and networking opportunities to help them navigate their career paths effectively. In this a panel discussion with the alumni where they share their career journeys, experiences, and insights into transitioning from mechanical engineering to software roles. Encourage them to discuss the challenges they faced, the skills they found most valuable, and any advice they have for current students. In Q&A session students allowed to ask questions to the alumni panel. This includes queries about specific software tools, programming languages, certifications, or strategies for breaking into the software industry as a mechanical engineer.
