ABOUT THE COLLEGE

PRAGATI ENGINEERING COLLEGE focuses on imparting skills on cutting – edge technologies and shaping the students into disciplined young citizens of good character and lays emphasis on practical experience so as to enable them to secure employment in industry thereby to become entrepreneurs. The courses are so structured which leads to a linear growth and progressive insight into the engineering subjects as well as training in soft skills. Since inception in 2001, in its quest to offer quality education, our college has become a temple of knowledge and produced hundreds of eminent and skill full graduate engineers, who are successful in their careers, serving all over the world.

ABOUT CSE & IT DEPARTMENTS

The faculty is a blend of Experienced Academicians and Industry professionals having different specializations in Computer Science and Engineering & Information Technology to impart their expertise through B.Tech program. The department offers Post Graduate programs in M.Tech with specialization in Computer Science and Engineering, and Computer Science.

- Started B.Tech in 2001-02 with an initial intake of 60
- From 2006-07 onwards the intake of B.Tech is increased to 120
- Started B.Tech-2nd Shift in 2015-16 with an intake of 60
- Present intake for B.Tech is 180
- Started M.Tech (CSE) in 2007-08 with an intake of 18
- Started M.Tech (CS) in 2010-11 with an intake of 18
- Recognition as R & D Center by JNTUK, Kakinada

The department has excellent infrastructure to support the teaching learning process. The class rooms of the department have the ICT infrastructure. The faculty of the department utilizes these systems to deliver lectures effectively. A new training facility named e-class room was developed in the year 2009. The latest equipment required for video conferencing and remote lecture delivery are available in the e-

class room. The department of CSE & IT also maintains the MOODLE, the learning management system for electronic distribution of lecture material, online references and question papers.

The department has laboratories to serve the teaching and research needs of the students and faculty members. The laboratories of the department have substantial computing resources that include the latest hardware and software. The laboratories are equipped with the computers of latest configuration. All the laboratory computers are connected to the campus network using hi-speed Local Area Network. A dedicated leased line provides round-the clock Internet access to all the laboratory computers. The department also maintains a dedicated lab for improving the communication skills of the students. The college and the department are well served by the central library. The central library has more than 2400 titles related to Computer Science and Engineering discipline. The central library has online subscription to various e-journals and INDEST, J-GATE, N-LIST and DELNET consortiums. The subscription provides online access to reputed engineering journals from professional societies. There is also a dedicated department library to serve the needs of the department.

The departments is well supported in academics by qualified and experienced faculty including five doctorates. The faculty members of the department actively pursue research in their respective areas. The students are encouraged to participate in national and international conferences, workshops, student symposiums and to publish papers in national / international journals. The department invites experts from premiere educational institutions and the industry to conduct seminars / workshops on the advanced topics in Computer Science.

The department has many MOUs with various academic institutions and industries for enhancement of imparting essential technical skills to the students through which the students of department of Computer Science and Engineering are also being benefitted.
