REPORT

Seminar on

Green and Sustainable Practices for Energy Savings in New or Existing Building

As a part of the Extra Circular student's club activity of Pragati Engineering College (Autonomous), Department of Civil Engineering, **GREEN BUILDING CLUB** organized a **SEMINAR on Green and Sustainable Practices for Energy Savings in New or Existing Buildings** on 06-02-2024 from 10:00AM in Library, PRAGATI ENGINEERING COLLEGE for all the student of civil Engineering and members of the Green Building club and the faculty members. Student members of **GREEN BUILDING CLUB** and all the other departments have taken apart and contributed their knowledge to the participants.

RESOURCE PERSON : DR S PRASAD,

ASST PROFESOR, H&S DEPT, PRAGATI

During the session, the following are discussed;

- Fundamentals of Energy Conservation
- The Importance of Conserving Energy: Environmental and Economic Impacts

Conserving energy is essential not only for protecting our environment but also for promoting economic stability. By reducing our energy consumption, we can minimize the demand for fossil fuels and significantly decrease greenhouse gas emissions. This, in turn, helps mitigate climate change, air pollution, and other environmental issues. Additionally, energy conservation can lead to substantial cost savings for individuals, businesses, and governments, freeing up resources for other essential investments.

- Understanding Different Forms of Energy and Their Usage.
- The Future of Energy Conservation

The program was attended by Faculty members and students. Participation of 20 students from Pragati Engineering College is so thoughtful and informative
