REPORT

Seminar on

CONCEPTS USED FOR GREEN ARCHITECTURE

As a part of the Extra Circular student's club activity of Pragati Engineering College (Autonomous), Department of Civil Engineering, GREEN BUILDING CLUB organized a seminar on concepts used for green Architecture 02-05-2024 from 2:00 PM in MS-7, PRAGATI ENGINEERING COLLEGE for all the student of civil Engineering and members of the Green Building club and the faculty members. Student members of GREEN BUILDING CLUB and all the other departments have taken apart and contributed their knowledge to the participants.

Resource person : D MAHESH, Student of III CE

The seminar on "Concepts Used for Green Building Projects" was held on 02 May, 2024, with the aim of exploring key concepts and strategies used in green building projects. The event brought together experts from the fields of architecture, engineering, and construction.

In this regards we discuss about the following things:

Energy Efficiency	Design Concepts	Sustainable Materials
Renewable energy systems (solar, wind, geothermal) - Energy-efficient systems (HVAC, lighting) - Energy recovery and storage - Case studies and examples	Building orientation and layout - Natural ventilation and lighting - Passive solar design - Biophilic design - Case studies and examples	Recycled and recyclable materials - Sustainably sourced materials - Low-VOC (Volatile Organic Compound) materials - Durability and reuse of materials - Case studies and examples

The program was attended by Faculty members and students. Participation of 35 students from Pragati Engineering College is so thoughtful and informative.
