HANDS ON EXPERIENCE OF GO-KART

24th December'2024 from 01:00 PM onwards (Machine Tools Laboratory)

PRAGATI ENGINEERING COLLEGE: SURMAPALEM (AUTONOMOUS)

Report on “HANDS ON EXPERIENCE OF GO-KART”

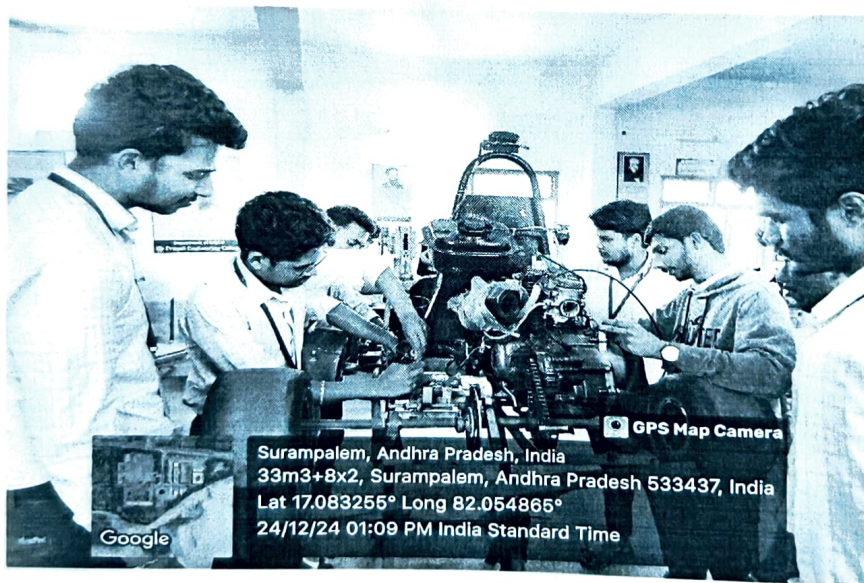

Date: 24.12.2024

A One-day programme on 24th December 2024 about Introduction to all the technical aspects and various technical terms used in the real world problems was organized by Go-Kart Club in association with IE (I) Local chapter of Mechanical Engineering Department, Pragati Engineering College.

In this seminar student coordinators of Go-Kart club of our college, Mr.G.Ravi Kumar, P.Sarath has taken the initiative to explain about the various technical aspects like strength, factor of safety, ductility, bending stresses, impact applied, ultimate tensile stress, gear ratio, steering ratio and several technical properties have been explained. For this session a total of 40 students of mechanical department have attended.

This initiative is taken in order to acknowledge students about the real life problems and various situations where the theoretical knowledge doesn't provide enough information to solve it. Through a combination of theoretical knowledge and the practical experience, students will gain a deeper understanding of the vehicle's mechanics including its engine, transmission and breaking system. This experience aims to provide a comprehensive introduction to the basics of combustion vehicles, making it an ideal starting point for those intrested in automotive engineering and mechanics

Mr.D.J.Johnson, faculty Co-ordinator of Go-Kart club, Mechanical Engineering Department, appreciated the students for their efforts.
