Metaverse Club of CSE (Artificial Intelligence) has organized a seminar for the students on Generative-AI. Mr. Kesana Venkata Rajesh (23A31A4331) of III year has delivered an insightful seminar on "**Generative-AI**" for the third-year cohort. The session aimed to introduce the fundamentals and real-world applications of Generative Artificial Intelligence, including how models like ChatGPT, DALL·E, and GANs (Generative Adversarial Networks) can create text, images, music, and more. With clear examples and simplified explanations, the student highlighted how generative models learn patterns from existing data to produce new, meaningful content. The seminar sparked curiosity among all, encouraging them to explore the rapidly evolving field of AI and its creative potential in academics and industry.
