Date: 01-07-2025

CIRCULAR

All the staff and students are hereby informed that the College NSS units of the Cyber Security(CSC) and Information Technology (IT) departments are jointly organizing an internal activity on the topic "Environmental Sanitation, Garbage Disposal & Composting" on 04-07-2025 (Friday) within the college campus.

This internal activity aims to create awareness among students and staff about keeping the campus clean and hygienic, promote proper waste segregation and disposal, and encourage composting as an eco-friendly practice. It inspires everyone to take responsibility for protecting the environment and adopt sustainable habits. All are requested to participate actively and make this event successful, helping us build a cleaner and greener campus.

A Report On **Environmental Sanitation and Disposal of Garbage & Composting**

An insightful and highly productive event on "Environmental Sanitation and Disposal of Garbage & Composting" was successfully organized today, July 4, 2025, at Pragati Engineering College. The event was a collaborative effort, prominently supported by the NSS Club of the college.

The event, meticulously coordinated by K. Siva Sankar, aimed to raise awareness and educate participants on critical aspects of waste management, promoting sustainable practices for a cleaner and healthier environment. The session ran from 11:00 AM to 12:00 PM and saw enthusiastic participation from students, faculty, and staff of Pragati Engineering College, as well as interested community members.

The event commenced promptly at 11:00 AM with a welcoming address by K. Siva Sankar. K. Siva Sankar, as the coordinator, expertly guided the proceedings, ensuring a smooth and engaging session. The agenda included:

- **Presentation on Environmental Sanitation:** A detailed overview of the impact of poor sanitation on public health and the environment was presented, emphasizing the need for clean surroundings, particularly within an institutional setting like Pragati Engineering College.
- **Discussion on Waste Segregation and Disposal:** Participants were enlightened on the importance of source segregation of waste (biodegradable, non-biodegradable, recyclable) and various responsible disposal methods applicable to a college campus and individual households.
- **Composting Workshop/Demonstration:** A significant portion of the event was dedicated to composting. A practical demonstration of composting techniques was conducted, illustrating how organic waste from canteens, hostels, and gardens within Pragati Engineering College can be transformed into valuable manure. Tips on setting up compost pits/bins and managing the composting process were shared.

The event successfully achieved its objectives, leaving participants with enhanced knowledge and a stronger commitment to environmental responsibility. Key outcomes include:

- Increased awareness regarding the adverse effects of improper waste disposal.
- Improved understanding of effective waste segregation and disposal strategies, with a specific focus on their application within Pragati Engineering College.
- Empowerment of participants with practical skills in composting, encouraging its adoption at individual and institutional levels, potentially leading to a greener campus.
