**A Report on "Construction of Roads with Geosynthetic Materials-A Bridge Approach "**

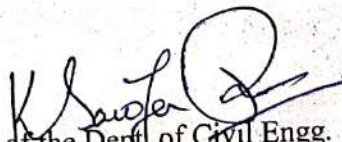

As a part of a professional society students club activity of Department of Civil Engineering of Pragati Engineering College (A), the ACCE(I) Kakinada center has organized a field visit for student chapter members of Civil Engineering Department on "Construction of Roads with Geosynthetic Materials-A Bridge Approach at Atchampeta Junction, Kakinada" on 8.07.2025 from 10.30 AM and members of ACCE(I) student chapter are invited to attend. Student members of ACCE(I) and interested students from other clubs are also participated. ACCE(I) is a national organization for consulting engineers in India and is the multi-disciplinary engineering professional society.

The following are discussed during the field visit,:

1. Field observations and demonstrations on Gabion wall design and Construction of Reinforced Earth (RE) wall , Box Culvert with geosynthetics.(10.45 AM- 11.30AM)
2. Live demonstration at the site on Design & Applications of Geocells and Ground Improvement (11.45AM -12.00PM)
3. Demonstration on Bridge Construction (12.00 Noon to 12.30PM)

The program was attended by Civil Engineering students. Participation of 30 students from III & IV year Civil Engineering Department made this session successful by their participation in discussion and clarifying their doubts. The Department of Civil Engineering of Pragati Engineering College is considered this session as important for students to gain some knowledge by field observations.
