Pragati
Engineering
College

An Autonomous Institution

ABOUT THE DEPARTMENT

Department of CSE (Artificial Intelligence) Established in the year 2021, with an intake of 60. The intake is increased to 180 in the year 2022-23.

- The department of AI has been set up with a goal of training students and conducting research in the fields of Artificial Intelligence. The department consists of highly qualified and dedicated faculty from the reputed institutes. The department aims to train the student as leaders in AI with world class infrastructure, curriculum and comprehensive hands-on experience through industry connect programs.
- The goal of the department is to ensure the academic excellence in students with wide exposure of research and career opportunities. The ultimate goal is to nurture the academic excellence, industry exposure and outstanding career opportunities to our students.
- What is AI?

Living in the age of information, technological advancements like Graphical Processing Units, Sensors, and Cloud storage have enabled us to capture information efficiently, process quickly and store it in large amounts. These advancements enhanced the applications of Machine learning and Neural Networks to a wide number of fields like Speech Technology, Computer Vision, Natural Language Processing, Robotics etc. The advancements in all these domains together created a transition from information systems into intelligent systems.

B.Tech – CSE(AI) Advantages

- High Demand for AI Professionals
- Lucrative Career Opportunities
- Versatility
- Innovation and Research
- Problem-Solving Skills
- Interdisciplinary Knowledge
- Ethical Considerations
- Entrepreneurship Opportunities
- Global Opportunities
- Continuous Learning
- Solving Real-World Problems

INSTITUTION VISION

To Emerge as a Premier Institution for Technical Education in the Country through Academic Excellence and to be Recognized as a Center for Excellence in Research & Development, catering to the needs of our Country.

INSTITUTION MISSION

To realize a strong Institution by consistently maintaining State-of-art-infrastructure and building a cohesive, World Class Team and provide need based Technical Education, Research and Development through enhanced Industry Interaction.

DEPARTMENT VISION

To emerge as a center of technical expertise in the field of Artificial Intelligence by producing globally competent professionals with technical & research capabilities, ethical values and team spirit.

DEPARTMENT MISSION

M1: To develop skilled and capable software professionals in the field of Artificial Intelligence.

M2: To induce application-oriented skills and research capabilities in students for the betterment of the society.

M3: To instill ethical and human values in students, enabling them to adapt to the evolving field of Artificial Intelligence.

PROGRAM EDUCATIONAL OBJECTIVES (PEOs)

PEO1: Graduates are prepared to apply analysis, predictions, optimization, decision making and develop skills in order to formulate and solve complex problems with artificial intelligence.

PEO2: Graduates are prepared to take up higher studies, research & development and other creative efforts in the area of AI which drives scientific and societal advancement through technological innovation and entrepreneurship.

PEO3: Graduates are prepared to use their skills and abilities in an ethical & professional manner.

EBHIGNA – AT A GLANCE

EBHIGNA is a major technical event held every year as part of **STRIDES**, organized by the Department of CSE (Artificial Intelligence) at our campus. Pragati Engineering College's Department of CSE (AI) will host the National Level Technical symposium, '**STRIDES**' - **2K25**, which will take place on January 8, 2K25. This event aims to gather students, professionals, and industry experts to share knowledge and advancements in AI and computer science. The symposium will include keynote speeches from esteemed guests and competitions like Be for Brand, Sequence Whisper, Hidden Fortunes, and Memetrix AI. Students from various engineering colleges are expected to attend, making it a great opportunity for networking and learning. The event will wrap up with a project exhibition, showcasing innovative AI solutions to real-world problems.

Let's Start!

Sequence Whisperer is an exciting and fast-paced team-based game where participants are tasked with decoding jumbled patterns within a limited time. The objective is to unscramble a series of mixed-up code sequences and use the corrected pattern to identify the provided objects. This game fosters collaboration, problem-solving, and quick thinking, making it both engaging and challenging.
