Organized
Under Strides 2K26
on 07.01.2026 to 09.01.2026

Pragati Engineering College
(AN AUTONOMOUS INSTITUTION)
3-180, ADB Road, Surampalem, Kakinada District, A.P - 533437

TECHSPLASH

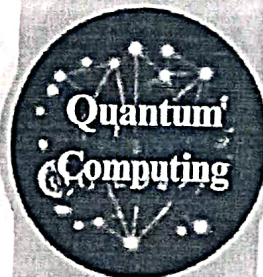

07-01-2026

Venue:
Central Library

CHIEF PATRON
Dr. P. Krishna Rao
CHAIRMAN

08-01-2026

PATRON
Dr. G. Naresh
PRINCIPAL

09-01-2026

CONVENOR
Mr. G. Satya Mohan Chowdary
HOD-IT

REPORT OF TECHSPASH UNDER STRIDES 2K26

About the TechSplash:

It is an open technical expo featuring three cutting-edge technology themes — AI Tools, Quantum Computing, and Cyber Security. These events are designed to provide students with exposure to the latest advancements shaping the modern technological landscape.

The expo encourages participation from all branches, promoting interdisciplinary learning and creativity beyond departmental boundaries. Through demonstrations, hands-on sessions, and interactive discussions, Tech Splash inspires students to explore emerging technologies, innovate, and apply their knowledge to real-world challenges.

The Three Events are scheduled as follows

Date & Day	Name of the Event
07.01.2026 Wednesday	Tech Splash Event: AI Tools
08.01.2026 Thursday	Tech Splash Event: Quantum Computing
09.01.2026 Friday	Tech Splash Event: Cyber Security

Venue: Central Library

Timings: 9:30AM to 12:30PM

Tech Splash Event: AI Tools

On Day 1: 07.01.2026

AI Tools Demonstration

As part of the technical session, various **AI tools** were explained by student teams from CSE AI Department, highlighting their applications in **career guidance, coding, security, mental health, and assistive technologies**. The details are presented below.

Career Guidance AI Tools

Explained by: *P. Akshaya, Sk. Asma*

1. **FutureFit AI:** FutureFit AI assists students in identifying their interests, strengths, and suitable career options through intelligent analysis.
2. **PathRise AI:** PathRise AI provides structured learning paths and personalized skill-building plans to guide learners toward their goals.
3. **CareerFlow AI**
CareerFlow AI focuses on aligning individual skills with real-world opportunities and long-term career objectives.

REPORT OF TECHSPLASH UNDER STRIDES 2K26

Coding and Productivity AI Tools

Explained by: *P. Bhuvana, B. Shanti Priya*

1. **Codeium AI**

An AI-powered coding assistant that helps developers write and auto-complete code efficiently by providing intelligent suggestions within the IDE.

2. **Snyk Code**

A code security tool that scans source code to identify vulnerabilities at an early stage, enabling developers to fix issues during development.

3. **Grammarly AI**

An AI writing assistant that checks grammar, spelling, clarity, and tone, thereby enhancing the overall quality of written content.

Learning and Mental Health AI Tools

Explained by: *Navya Dama, Gubbala Yashaswi Naga Pravallika*

1. **ChatGPT:** A general-purpose AI tool used for learning, coding assistance, problem-solving, and daily productivity. It also supports motivation and stress management.
2. **Wysa:** A mental health AI tool designed to help users manage stress, anxiety, and overthinking using Cognitive Behavioral Therapy (CBT) techniques.
3. **Woebot:** A psychology-based chatbot that supports mental well-being by helping users manage negative thoughts through evidence-based methods.

Assistive Technology AI Tool

Explained by: *M. Mithilesh, M. Karthik*

1. **NeuroDrive:** NeuroDrive is an AI-powered assistive mobility system designed for individuals with mobility impairments. It integrates muscle sensors, AI, and IoT to interpret bio-signals and make accurate, real-time movement decisions. Using machine learning algorithms such as decision trees, the system adapts to individual user patterns, providing personalized and reliable mobility assistance.

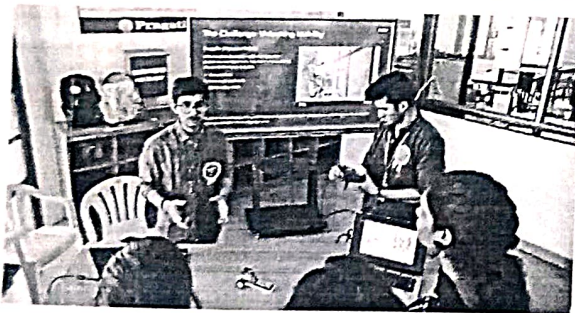

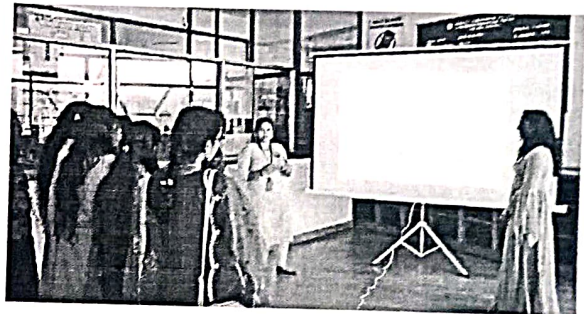

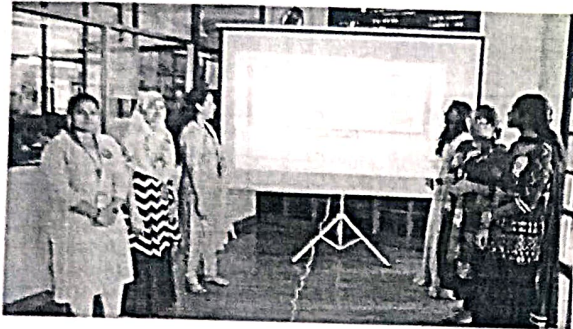

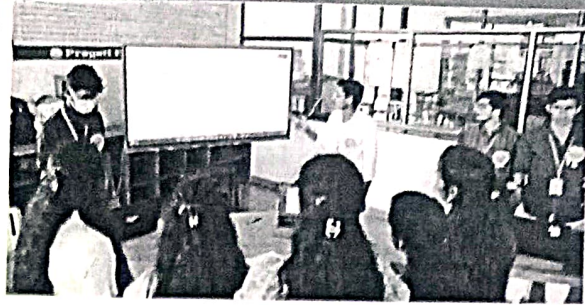

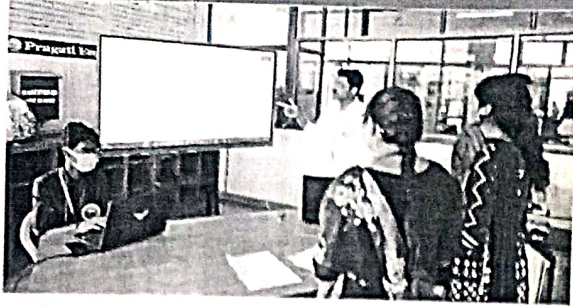

Career Intelligence AI Tool

Explained by: *B. Lakshmi Narayana Gupta, G. Ajay Satyaraj*

1. **PathFinders AI:** PathFinders AI is an AI-driven career intelligence platform that supports career planning and preparation. It offers AI-based mock interviews in text, audio, and video formats, personalized guidance through an AI Career Coach, and secure user management using Firebase authentication.

Total Students participated: 105

REPORT OF TECHSPLASH UNDER STRIDES 2K26

Photos of Students from Department of CSE AI Explaining different AI Tools to the participants from different branches at Central Library

Tech Splash Event: Quantum Computing

On Day 2: 08.01.2026

About Quantum Computing: Quantum Computing is an advanced computing paradigm that utilizes the principles of quantum mechanics to solve complex problems that are difficult or impractical for classical computers. Unlike classical systems that operate using bits with values of 0 or 1, quantum computers use qubits, which can exist in a superposition of states and can be entangled with one another, enabling parallel computation and efficient information sharing. This seminar introduced

STRIDES 2K26, PRAGATI ENGINEERING COLLEGE(A)

REPORT OF TECHSPLASH UNDER STRIDES 2K26

quantum computing concepts in a zero-background-friendly manner, explaining key ideas such as superposition, entanglement, and measurement using simple analogies. It also highlighted why quantum computers are especially powerful for simulating natural systems, such as molecular interactions in medicine, optimization problems, cybersecurity, and certain artificial intelligence tasks. Although quantum computing is still in its early developmental stage, it holds significant potential to work alongside classical computers in the future and transform fields like healthcare, security, and scientific research.

This event is organized and presented by two team of 12 students from various department students.

Team 1: Sk. Alisha, A. Rohit Vijay, K. Satya Prabhas, SRK. Akshara, Sk. Rijwana, and R. Amrutha from Department of CSE AIML

Team 2: Sayed mohiddeen from ECE department, Patnala Yashwanth Gupta, Palisetti Jhnana Prasuna Alekhya, Kothavalasa Srivalli, Pothula Mounika and Kurupudi Lalithakala from CSE Department

Team 1: Collaborative Quantum Job Dashboard

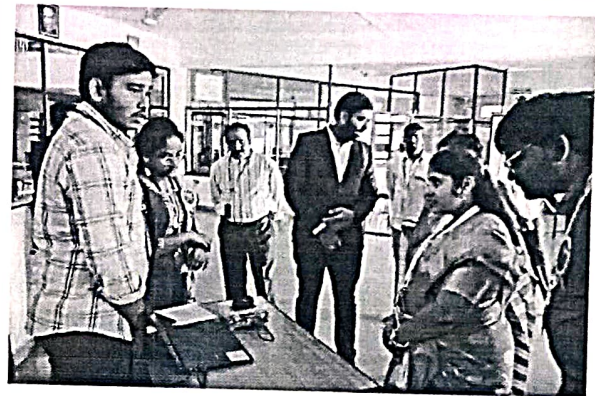

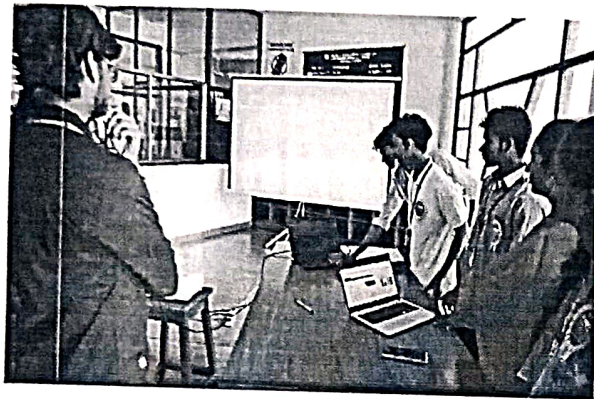

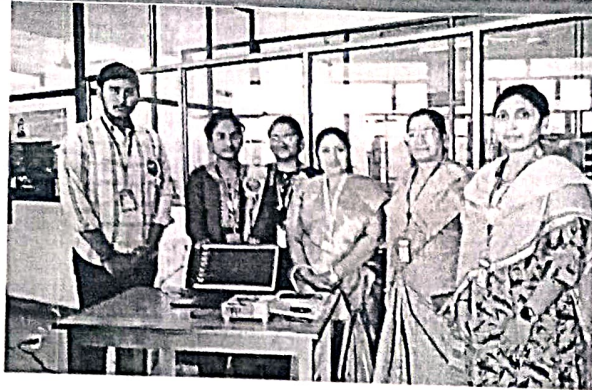

The Collaborative AI-Enabled Dashboard is an intelligent management platform designed to optimize the workflow of running quantum circuits on IBM Quantum processors, addressing critical inefficiencies such as long queue delays, unpredictable hardware noise, and opaque execution costs. Unlike traditional interfaces that offer limited visibility into job status, this system leverages machine learning—specifically a Random Forest Regressor—to analyze circuit parameters like qubit count and depth, enabling accurate predictions of job success rates, wait times, and resource expenses. The paper highlights a novel approach to transparency and teamwork by integrating Explainable AI (XAI) tools like SHAP and LIME to clarify the reasoning behind AI predictions, while also embedding a Jupyter Notebook environment that supports real-time, Google Docs-style collaborative circuit editing for multiple users. By automating backend selection and job resubmission based on performance data, this solution aims to bridge the gap between theoretical circuit design and practical execution, significantly improving accessibility and efficiency for researchers, educators, and developers in the quantum computing field.

Team 2: Quantum Random Number Generator (QRNG)

This project presents the design and implementation of a Quantum Random Number Generator (QRNG) based on fundamental principles of quantum mechanics, particularly superposition and measurement, aimed at enhancing transaction security in digital banking systems. The proposed system replaces predictable pseudo-random number generators with true quantum randomness using a low-cost hardware setup consisting of optical components such as a beam splitter, photon detection mechanism, LED biased in reverse, and Arduino-based data processing. Quantum uncertainty is captured through light beam splitting and photon detection, converted into random qubits, and transmitted via serial communication to a secure banking web application. The solution integrates both hardware and software components, including a web-based simulation platform demonstrating secure versus insecure transactions. This innovation provides a practical demonstration of quantum-secured banking, highlighting the real-world applicability of quantum technologies in cybersecurity. The model is cost-effective, educational, and scalable, making it suitable for academic institutions and fintech research environments while preparing systems for the future quantum-security era.

Total Students participated: 102

REPORT OF TECHSPASH UNDER STRIDES 2K26

Photos of Chief Guest of Departments of IT & Cyber Security Dr. Sunitha Eluri, Asst. Prof., CSE Dept., JNTUK, Dr. Manjula HOD-CSE, Dr. D Uma, Asst. Prof. of CSE and Mr. G Satya Mohan Chowdary HOD-IT and Convener of Strides along with faculty and students are attended the event at Central Library

Tech Splash Event: **Cyber Security**

On Day 3: 09.01.2026

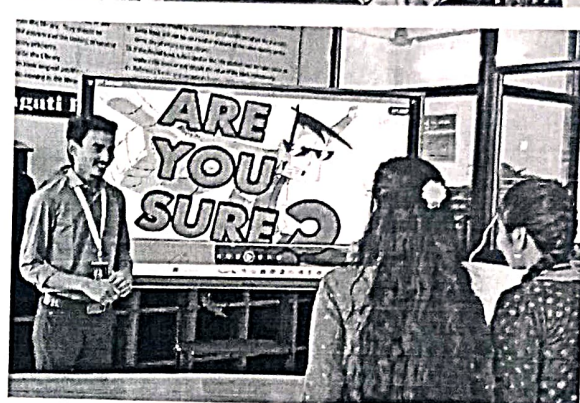

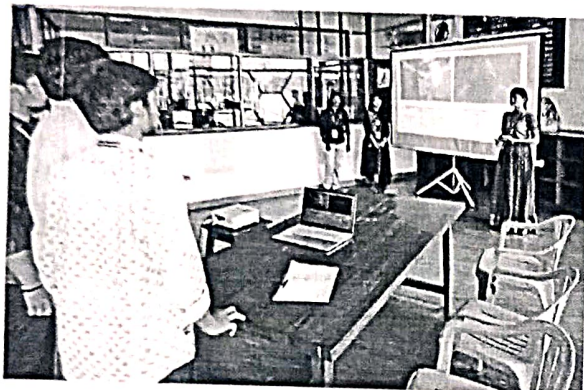

Digital Nagrik – Cyber Security Campaign is an awareness initiative aimed at promoting the safe, responsible, and ethical use of digital technologies. As digital platforms increasingly influence education, communication, and financial activities, the campaign highlights the need for strong cybersecurity awareness among students by encouraging secure online practices and a better understanding of common digital risks.

The initiative promotes responsible digital citizenship by empowering young minds with the knowledge and confidence required to protect themselves from cyber threats. Organized by **Pragati Engineering College** under the **National Technical Symposium STRIDES 2K26**, the campaign supports the vision of a digitally strong India built on informed, vigilant, and responsible citizens.

This event is organized and presented by a team of six students from the **Department of CSE (Cyber Security)**, II Year: P. Divya Sree, G. Purni Sasikala Devi, I. Chinni, A. Mery Mamatha, B. Prabhu Surya, and K. Sai Swarup.

Total Students participated: 64

REPORT OF TECHSPASH UNDER STRIDES 2K26

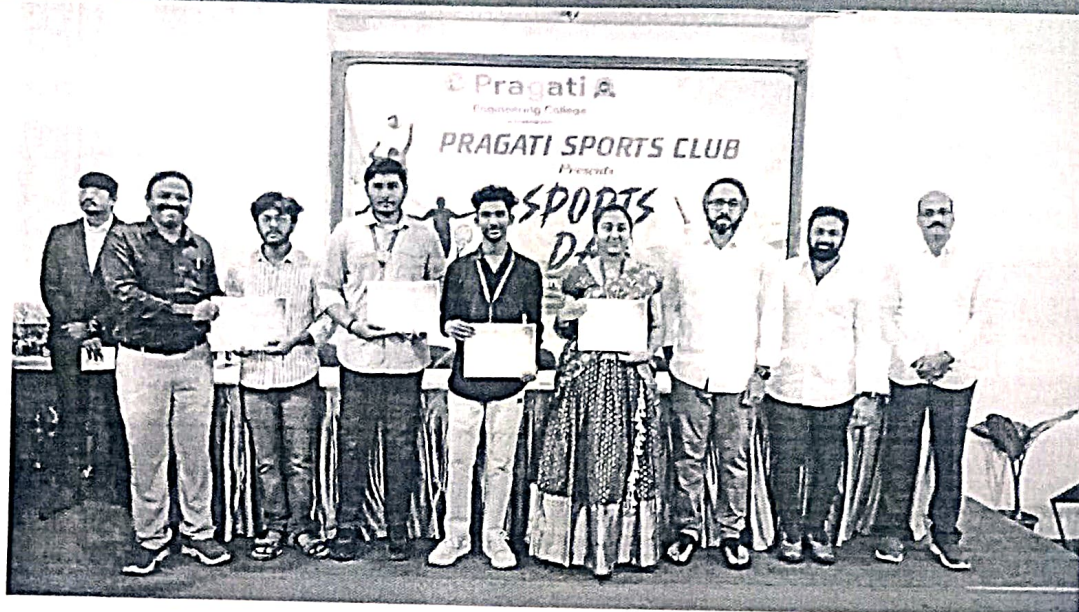

Photos chief guest of CSE AI Dr. Siva Rama Krishna T, Asst. Prof., CSE Dept., JNTUK and Mrs. K L Viveka HOD- CSE AI along with faculty and students are visited the event at Central Library

All the students who organized and presented these events received an honorarium of ₹1,000/- each along with a Volunteer Certificate in recognition of their contribution during the College Sports Day held on 10.01.2026.
