A Report on the Student Association Activity

As part of the technical session under the **Student Association Activities** of the Department of CSE (Data Science), THE DEPARTMENT LEVEL ALUMNI GUEST LECTURE event was conducted.

Name of the Event: "Current Trend in Software Industry – Securing and Sustaining a Software Job"

Speaker : Mr. KAVALI ROSHAN KUMAR(Software Development Engineer-I – HP, Bengaluru)

Date of the Event: 22-12-2025

Time of the Event: 11:00 AM To 12:00 PM

Venue of the Event: TECH BLOCK(CF-4)

Brief Write-up of the Event:

The seminar provided an enlightening session on career guidance, focusing on strategies for excelling in the software development field. Our distinguished alumnus returned to inspire students by sharing his authentic journey—not just his successes, but the raw challenges and mistakes he encountered during his own placement season. Through the theme **"College to Career,"** he offered a transparent look at the transition into the industry. By discussing his personal hurdles and the reality of the modern work environment, he served as a relatable guide, motivating students to navigate their own paths with resilience and a growth mindset.

Highlights and Key Takeaways:

Turning Mistakes into Milestones: The speaker candidly shared his early placement failures, noting that his biggest mistakes such as lack of interview preparation and technical overconfidence became his greatest learning opportunities. He encouraged students to view rejections as essential feedback for refining their skills and approach.

Navigating the Modern Work Environment: He provided a realistic view of life in software development, explaining that the industry values problem-solving and adaptability over mere theoretical knowledge. He stressed that a successful work environment thrives on continuous learning and the ability to pivot when faced with complex, real-world coding challenges.

Academic Excellence and Practical Resilience: While top grades provide a foundation, he emphasized that hands-on projects and internships are what build professional confidence. He shared how his own practical experiences helped him overcome the steep learning curve he faced when first entering the corporate world.

STUDENT ASSOCIATION ACTIVITY

Communication for Professional Impact: Reflecting on his career growth, the speaker highlighted that the ability to articulate ideas clearly is just as important as writing clean code. He urged students to participate in group discussions and public speaking to bridge the gap between technical expertise and professional influence.

Post-Event Feedback:

The career guidance seminar received enthusiastic feedback for its honest and practical approach. Students deeply appreciated the speaker's willingness to discuss his personal struggles and placement mistakes, making the advice feel attainable and real. The direct interaction helped students understand industry expectations and the importance of resilience. Overall, students left the session inspired, feeling more confident to face the challenges of the upcoming placement season.
