A Report on the Data Analytics Club Activity

As part of the technical activities under the **Data Analytics Club** of the Department of CSE (Data Science), this event was conducted.

Name of the Event: Technical Seminar

Name of the Topic: world population day

Name of the Speaker: G. Satya Harika(24A31A44E2)

Date of the Event: 11-07-2026

Time of the Event: 2:00 PM TO 3:00 PM

Venue of the Event: CF – 8(TECH BLOCK)

A total of 72 students attended this event. All the students have actively participated in the event.

Brief write-up of the Event:

The Data Analytics Club organized an engaging session on "**World Population Day**." The session aimed to help students understand the importance of population awareness, sustainable development, and the challenges associated with rapid population growth.

The speaker explained the significance of World Population Day and discussed how increasing population affects natural resources, healthcare, education, employment, and the environment. Students were encouraged to understand the need for responsible population management and the role of individuals in building a sustainable future.

1. Introduction to World Population Day

World Population Day is observed every year on 11th July to raise awareness about global population issues. It highlights the importance of sustainable development, equal opportunities, and improving the quality of life for all.

2. Population Challenges

Rapid population growth leads to pressure on food, water, housing, healthcare, education, and employment. Overpopulation can also contribute to environmental pollution, climate change, and depletion of natural resources.

3. Solutions and Awareness

Promote education, healthcare, and family planning awareness. Encourage responsible use of natural resources and support sustainable development for future generations..

HIGHLIGHTS AND KEY TAKEAWAYS:

- Importance of World Population Day in creating awareness about global population issues.
- Understanding the impact of rapid population growth on resources and the environment.
- Awareness of challenges such as overpopulation, unemployment, pollution, and climate change.
- Importance of education, healthcare, and family planning in achieving sustainable development.

POST-EVENT FEEDBACK:

Participants found the World Population Day awareness program highly informative and meaningful. The session increased awareness about population growth, its impact on natural resources, environmental sustainability, and the importance of family planning. Participants appreciated the practical insights shared and felt motivated to support responsible population management and sustainable development in their daily lives.

Questions Raised by Students:

- Why is World Population Day observed every year on 11th July?
- What are the major causes and effects of rapid population growth?
- How can education and family planning help in population control?
- What role can students play in creating awareness about sustainable population management?
