STUDENT ASSOCIATION ACTIVITY

ACTIVITY REPORT

As part of the continuous skill-development initiatives by the Data Science Student Association, an activity was structured as a formal Poster Presentation Competition on August 6, 2026, to observe International Anti-Nuclear Day. The focus of the session was a highly relevant global dilemma: "Pathways to Peace: A World Free of Nuclear Threats." The activity targeted II, III, year B.Tech students, encouraging them to analyse the critical balance between historical humanitarian impacts, environmental hazards, and modern global disarmament treaties. Through this collaborative session, students were pushed to evaluate pressing geopolitical and humanitarian trends while sharpening their essential professional skills in critical research, visual communication, structural articulation, and persuasive presentation delivery.
