WEEKLY ACTIVITY REPORT

As part of the continuous skill-development initiatives by the Data Science Student Association, a weekly activity was structured as a formal Group Discussion on August 01, 2026. The focus of the session was a highly relevant contemporary dilemma: "World Nature Conservation Day." The activity targeted III-Year and II-Year B.Tech students, encouraging them to analyze the critical balance between digital learning architectures and conventional classroom methodologies. Through this collaborative session, students were pushed to evaluate pressing academic and technological trends while sharpening their essential professional skills in critical research, structural articulation, and persuasive public speaking.
